SUMMARY

Computer Science student at the Faculty of Electrical Engineering and Computing (FER), with hands-on experience in server infrastructure management, networking, virtualization, AWS cloud services and cybersecurity. Pursuing AWS Solutions Architect certification with focus on cloud architecture and infrastructure automation.

SKILLS

- **Cloud & Infrastructure:** AWS (EC2, S3, IAM, CloudFront), Proxmox, Ubuntu Server, Docker
- **Systems:** Server management, Linux administration, virtualization
- **Networking & Security:** Routing, DHCP, NFS, Samba, Tailscale/VPN, least-privilege access, cloud security
- **Languages:** Croatian (native), English (C2, proficient), Spanish (A2)
- **Soft:** Analytical thinking, problem-solving, adaptability

PROJECTS

Self-Hosted Cloud Infrastructure Homelab

github.com/leon-mihaljevic/home-lab

- Designed and operated a virtualized home server using Proxmox VE with isolated VMs for storage (NAS) and application (Docker) workloads.
- Deployed containerized service stack (Portainer, Uptime Kuma, Homepage, Jellyfin) with persistent NFS/Samba network storage.
- Architecture mirrors AWS concepts such as EC2, ECS, EFS, VPN.

Secure Static Portfolio on AWS

github.com/leon-mihaljevic/aws-portfolio-site

- Architected and deployed a secure static site on AWS, using CloudFront with Origin Access Control (OAC). S3 origin bucket kept fully private with no public bucket access and no static website hosting exposure.
- Implemented least-privilege IAM: created a dedicated, custom-scoped IAM user and policy for all provisioning and deployment instead of using root/admin credentials, with MFA enforced on the root account.
- Verified the security model through direct testing, confirming unauthorized S3 access attempts were denied and all traffic was served exclusively through the CDN.

EDUCATION

Faculty of Electrical Engineering and Computing (FER), Zagreb, Croatia

B.Sc. Computer Science (2026 – Present)

V. gymnasium, Zagreb, Croatia

Mathematics program (2022 – 2026)

CERTIFICATIONS & TRAINING

- *AWS Certified Solutions Architect – Associate — in progress (2026)*
- Google Cybersecurity Professional Certificate — Google, Coursera (02/2026)

TECHNICAL EXPERIENCE

Computer and Laptop Evaluation & Optimization

- Evaluated, tested, and optimized computer hardware components and complete laptop systems for performance, compatibility, and reliability
- Built and repaired computer systems, diagnosed and resolved hardware issues, assessed component specifications and upgrade paths
