SUMMARY

Computer Science student at the Faculty of Electrical Engineering and Computing (FER), with hands-on experience in server infrastructure management, networking, virtualization, AWS cloud services and cybersecurity. Pursuing AWS Solutions Architect certification with focus on cloud architecture and infrastructure automation.

SKILLS

- **Cloud & Infrastructure:** AWS (EC2, S3, IAM, CloudFront), Proxmox, Ubuntu Server, Docker
- **Systems:** Server management, Linux administration, virtualization
- **Networking & Security:** Routing, DHCP, NFS, Samba, Tailscale/VPN, least-privilege access, cloud security
- **Languages:** Croatian (native), English (C2, proficient), Spanish (A2)
- **Soft:** Analytical thinking, problem-solving, adaptability

PROJECTS

Self-Hosted Cloud Infrastructure Homelab

github.com/leon-mihaljevic/home-lab

- Designed and operated a virtualized home server using Proxmox VE with isolated VMs for storage (NAS) and application (Docker) workloads.
- Deployed containerized service stack (Portainer, Uptime Kuma, Homepage, Jellyfin) with persistent NFS/Samba network storage.
- Architecture mirrors AWS concepts such as EC2, ECS, EFS, VPN.

Secure Static Portfolio on AWS

github.com/leon-mihaljevic/aws-portfolio-site

- Deployed a secure, fully automated AWS static site: private S3 origin behind CloudFront (OAC), event-driven Lambda cache invalidation, and OIDC-authenticated CI/CD with no stored AWS credentials.
- Enforced resource-scoped least-privilege IAM across every identity in the project, and added tested CloudWatch/SNS alerting for failures.
- Migrated the complete live architecture to Terraform via import, achieving full infrastructure-as-code coverage with zero downtime.

EDUCATION

Faculty of Electrical Engineering and Computing (FER), Zagreb, Croatia

B.Sc. Computer Science (2026 – Present)

V. gymnasium, Zagreb, Croatia

Mathematics program (2022 – 2026)

CERTIFICATIONS & TRAINING

- *AWS Certified Solutions Architect – Associate — in progress (2026)*
- Google Cybersecurity Professional Certificate — Google, Coursera (02/2026)

TECHNICAL EXPERIENCE

Computer and Laptop Evaluation & Optimization

- Evaluated, tested, and optimized computer hardware components and complete laptop systems for performance, compatibility, and reliability
- Built and repaired computer systems, diagnosed and resolved hardware issues, assessed component specifications and upgrade paths
